Overview

- ***Tonight***– Strong to severe storms over central Illinois will move into southern Indiana by sunset, and into north central Kentucky late this evening. This will be the main threat for damaging winds tonight.
- Additional thunderstorms with heavy rainfall may develop overnight across SE Indiana and portions of north-central and east-central Kentucky.
- ***Sunday*** – Storm intensity and locations will be largely dependent on how the situation evolves tonight. However, locations with the highest threat will be focused will across mainly central and eastern Kentucky...mainly east of Interstate 65.
